FOR: APOPTOSIS-INDUCING COMPOUNDS

Honorable Commissioner of Patents and Trademarks
Washington, DC 20231

Sir:

SUPPLEMENTAL AMENDMENT

This Supplemental Amendment is submitted following Applicants' response filed with the U.S. Patent Office on December 24, 2002, and further in response to the Office Action issued on September 25, 2002.

REMARKS

Applicants merely wish to enclose a clean copy of two enclosures which were provided with their earlier response. No new matter is added by virtue of the within Supplemental Amendment.

In particular, as part of their earlier response, Applicants offered certain results in tabular form which demonstrated the ability of the claimed compounds to induce apoptosis in additional cell lines such as prostate cancer (PC3) and ovarian carcinoma (OAW42), for example. Applicants merely wish to enclose a cleaner copy of that table.

Additionally, in further support of Applicants' arguments, the earlier response enclosed a copy of a paper entitled "Tumor selective G₂/M cell cycle arrest and apoptosis of epithelial and hematological malignancies by BBL22, a benzazepine" (Xia et al., *PNAS*, June
